

You Are Anxious

... for the Health of Your Family.

Each sale of the high price much advertised baking powder to you is a covert attack upon the health of your family and a menace to general health. Grocers are not generally aware that bread baked with the high price powders is more than 70 per cent rochele salts, all of which you consume in your bread, or they would not offer them to you.

You must look out for yourself by using

CALUMET BAKING POWDER

IT IS PURE AND WHOLESOME.

University Extension.

The University Extension course of lectures is a plan by which some of the advantages of a university course may be enjoyed by people who cannot have university privileges. The lectures are, however, of a popular character and combine instruction with entertainment. In the course here this winter Prof. Moulton talks on "Stories as a mode of thinking." Just the kind of talks that will be of great benefit to the three or four hundred young people of the city who are forming a taste for literature. To enjoy reading thoroughly one must be able to read intelligently, and the boy or girl who sees beyond the mere plot of the story, and reads in sympathy with the author's object is the one who gets the most out of reading.

This is the field in which Prof. Moulton excels all others, in exciting a new interest in good literature. His first lecture is on "Faust—Thinkings about the Loss of the Soul."

Parents will do well to interest their children in these lectures. The price of tickets, \$1.00, admitting two members of a family, has been made this year, so that fathers and mothers may bring their children with them.

First lecture Thursday evening, Jan. 7th, tickets for sale at Park's drug store, Citizens Savings Bank, and by canvassers.

NATIONAL LEGISLATURE.

Synopsis of the Proceedings of the Law Makers.

Washington, Dec. 11.—The first thing in the senate yesterday was a speech by Cullum in favor of the recognition of Cuban independence. He spoke to a resolution which declared that Spain must get out of the entire West Indies. Call of Florida spoke for the recognition of Cuban independence. The immigration bill (Lodge's) then came up and was extensively debated, but went over without action. An executive session was held. Adjourned to Monday.

In the house the debate was political principally, on Populism, the Republicans ridiculing that style of politics and the Populists defending it. A bill was passed prohibiting the sale of intoxicating liquors in the Capitol or Capitol grounds, only five voting against it and 100 for. Adjourned.

Washington, Dec. 12.—The house only was in session yesterday. The chaplain thanked the Lord that the house had passed the bill prohibiting the sale of intoxicating liquors in the Capitol and the members applauded. The time of the committee investigating the tax on alcohol used in the arts was extended to the close of this session. Private bills were then in order and in committee seven were passed, only two of which were adopted by the house. A night session was held at which thirty-three private pension bills were favorably acted upon. Adjourned to Monday.

Washington, Dec. 15.—In the senate yesterday Peffer offered a comprehensive resolution for a commission to investigate and report on monetary system. Allen spoke on the purposes of the Populists regarding legal obligations, declaring that no such obligations would suffer at their hands. It was agreed to vote on the immigration bill Thursday; the bill for the election of senators by the people was discussed without action. Fifty-five pension bills were passed and some Cuban resolutions introduced. An executive session was held.

The house failed to sustain the president's veto of the private pension bill of Mrs. Lydia A. Taft, a soldier's divorcee and widow—lacking the necessary two-thirds; agreed to adjourn for the holidays Dec. 22 and passed a bill to make it harder to "get a drink" in the District.

Washington, Dec. 16.—The opening prayer in the senate was delivered yesterday by Rev. T. DeWitt Talmage. The pension appropriation bill was reported. The resolution from the house to adjourn for the holidays Dec. 22 was agreed to. Morgan made a warm speech on the Cuban question in which he declared for war if the Spanish did not get out. Allen offered a resolution for a committee to investigate newspaper reports of the use of money in elections. The vote of the bill for a pension to Nancy Allabach was overridden and the bill passed over the veto. An executive session was held.

In the house Loud's bill to restrict second class mail matter at one cent a pound was debated without action, and the bill to reorganize the Atlantic and Pacific Railway company was passed.

Meeting of Lumber Men.

Cincinnati, Dec. 16.—Lumber men north and south met here yesterday and appointed a committee to go to Washington and urge a duty on this product of the United States. Resolutions opposing any discrimination against the lumber interests in a tariff bill were adopted. The sentiment of the meeting seemed to favor a duty of \$2 per 1,000 feet. About 150 delegates were present from twenty-seven states.

VENEZUELA TREATY ALL RIGHT.

Andrade Leaves for This Country on Saturday—Crespo Not Talking.

New York, Dec. 16.—A dispatch from Caracas, Venezuela, to The World says: President Crespo declines for state reasons to answer any questions concerning the Venezuelan government's attitude towards the arbitration treaty entered into between the British and United States governments. The situation here is misunderstood in the United States, as is evident from the false impressions which have been cabled.

The best men of Venezuela, those who understand the matter, favor the acceptance of the treaty arranged between Great Britain and the United States. President Crespo will not ask any modification of its terms. Minister Andrade will sail next Sunday for his return to the United States, and this looks as though matters stood well.

It is stated, however, that the paramount business of the meeting will be to arrange the details for the convention of silver leaders throughout the country with a view to the inauguration of a comprehensive organization in behalf of silver.

NEWS OF THE STATE.

MICHIGAN ITEMS THAT WILL INTEREST OUR READERS.

Some of the Important Happenings of the State Picked Up Here and There and Reported by Telegraph—Summary of Events of the Past Few Days.

Lansing, Mich., Dec. 12.—The average condition of wheat Dec. 1 was 91 per cent of condition in average years. This is 9 per cent above condition Dec. 1, 1895. The average condition in the southern counties is 89; central, 93, and northern, 96. One year ago the condition in these sections respectively was 78, 86 and 95. The total number of bushels of wheat reported marketed by farmers since the November report was published is 1,396,590, and in the four months, August, September, October and November, 4,685,674. This is 577,663 bushels more than reported marketed in the same months last year. The amount reported marketed in November this year is 101,204 bushels more than reported for November, 1895. Fall pasture has been good and live stock is in fine condition.

The mean temperature of the state for November was 35.6 degrees, or 0.6 degrees above the normal. There was an excess of 2.5 degrees in the southern counties, of 1.5 degrees in the central, and 0.7 degrees in the northern. The average precipitation, including both rain and melted snow, in the state was 3.47 inches; in the southern counties, 2.44 inches; in the central, 2.88 inches, and in the northern, 4.53 inches. Compared with an average or normal there was an excess of 0.55 inches in the state, of 0.25 inches in the central, of 1.82 inches in the northern counties, and 2.84 inches in the upper peninsula, and a deficiency of 0.66 in the southern counties.

Scheme Rapidly Developing.

Ironwood, Mich., Dec. 11.—The scheme of the Rockefeller syndicate to gain control of the mines in this section is rapidly developing. An endeavor was made by the syndicate to purchase the great Metropolitan group here, but it failed. Since then the owners had no market for their ore and as a result the group is idle. Other mines, those in which the syndicate is interested, show marked tendencies of a general improvement in business. The Breckerton mine will start up, the Ashland added fifty men to its force, the Sunday Lake at Wakefield fifteen, and the Tilden 200 men.

Official Iron Ore Statistics.

Ipsheim, Mich., Dec. 15.—Official figures of iron ore shipments from Michigan mines for the current year show a total of 5,562,254 gross tons, a considerable decrease from last year's figures. The principal curtailment of production was in the Gogebic range, the Marquette and Menominee ranges holding their own. The Wisconsin and Minnesota mines have forwarded very nearly 4,000,000 tons of ore by water this year. With all rail shipments and local and furnace consumption included, the 1896 Lake Superior iron ore output will approximate 10,000,000 gross tons.

DON'T STOP TOBACCO.

How to Cure Yourself While Using It.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco to an inveterate user becomes a stimulant that his system continually craves. "Baco-Curo" is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure. It is purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want while taking "Baco-Curo." It will notify you when to stop. We give a written guarantee to cure permanently any case with three boxes, or refund the money with 10 per cent interest. "Baco-Curo" is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew or smoke.

CURED BY BACO-CURO AND GAINED THIRTY POUNDS.

From hundreds of testimonials, the originals of which are on file and open to inspection, the following is presented:

CLAYTON, NEVADA CO. ARK., Jan. 28, 1895.

Eureka Chemical & Mfg. Co., La Crosse, Wis.—Gentlemen: For forty years I used tobacco in its forms for twenty-five years of that time I was a great sufferer from general debility and heart disease. For fifteen years I tried to quit, but could not. I took various remedies, among others "No-To-Bac," "The Indian Tobacco Antidote," "Double Chloride of Gold," etc., etc., but none of them did me the least bit of good. Finally, however, I purchased a box of your "Baco-Curo" and it has entirely cured me of the habit in all its forms, and I have increased thirty pounds in weight and am relieved from all the numerous aches and pains of body and mind. I could write a quire of paper upon my changed feelings and condition.

Yours respectfully, P. H. Marbury.

Pastor C. P. Church, Clayton, Ark.

Sold by all druggists at \$1.00 per box: three boxes, (thirty days' treatment), \$2.50 with iron-clad, written guarantee, or sent direct upon receipt of price. Write for booklet and proofs. Eureka Chemical & Mfg. Co., La Crosse, Wis., and Boston, Mass.

Planchette Played Him a Trick.

Decatur, Mich., Dec. 14.—W. L. Van Alstyne, of Maple Rapids, sacrificed a flourishing business some months ago, moved his family into the country and then disappeared. A few days ago he returned. It is now learned that the family consulted a planchette board, which directed Van Alstyne to go to the state of Washington, and designated a certain place where he would find a pocket of gold nuggets. He found the spot all right, but no nuggets.

Surprised Their Friends.

Coldwater, Mich., Dec. 12.—Two of Coldwater's society young people, Mr. Phil Wing, son of T. M. Wing, president of the Coldwater National bank, and Miss Charlotte Dickinson, only daughter of C. H. Dickinson, and granddaughter of P. F. Wright, went to Hillsdale and were quietly married. The marriage is a surprise to all their friends here, though it was expected to take place later. They will reside in Hillsdale.
